

# TONALi Academy

Escola Profissional de Música Espinho,  
22 to 25. April 2023  
Workshop „Artepreneurship“

tonali

# Welcome

TONALi's three-day training program "Artepreneurship" is designed for aspiring or trained musicians who would also like to get involved in society. The goal is to convey the innovative TONALi philosophy, which fundamentally expands the idea of participation. In addition, the offer provides a contemporary qualification in self-management, storytelling, as well as an active design of the concert in the new TONALi "concert kitchen", through which the self-image of one's own artist personality on the free cultural market can be strengthened.
